- Seat 5: Ian Lister - present

## II. PUBLIC COMMENT (9:40)

Bob Phalan gave us a check for \$20 on behalf of Wildlife Cycles.

He also mentioned that the PTSA may have a way to funnel various funds through their organization rather than, as previously requested, need to use OIPRD for this function.

Meeting with various soccer coaches to get proposals to improve the soccer fields. They are not yet prepared but wanted to convey via Bob the desire to have the fields improved before Fall soccer if OIPRD can find sufficient funds to lend a hand.

Bob Eagan suggested that we all be careful before improving fields to make sure it is via a coordinated effort involving his input, as he has researched it extensively and it is possible that work done may need to be redone if the entire project is not considered and efforts coordinated.

Matt Stolmeier ([mstolmeier@gmail.com](mailto:mstolmeier@gmail.com)) did some research on landscaping costs – Justin Taylor of the Orcas golf course recommended purchasing perhaps 2 dump truck loads of washed sand (vs. construction grade) @ about \$52/yd. (as it will drain better and be more consistent) and have kids participating in filling holes in both the soccer and baseball fields. He also suggested using a 'plug aerator' for better drainage and root growth, etc. – he would charge \$50/hr. for his – and that it might take roughly 2 hours - though Bob believes the school may

have one that could be used. Matt suggests that the school's may be a 'slicer' which would not be as effective once it rains.

Also requests a door/hole in the fence in the lowest baseball field outfield so kids aren't jumping over it and consequently damaging it.
