III. PUBLIC COMMENT

Zak Everly inquired regarding a contingency plan in the case of OISD failing to meet the deadline for baseball field preparations. Bob shared that, yes, there is a contingency plan for field use. However, through recent discussion with a school board member he learned that the school may not be breaking ground on the existing field this spring, as the track may be an add-on alternative due to project bids coming in over budget. Bob reports that he urged OISD not move the current location of the baseball fields until a timeline for work on the track is confirmed. Zak further questioned about bringing the current fields to better condition prior to the season start in the case the fields remain in the current location and inquired whether OIPRD would hold OISD to the contract. The Commissioners assured that OIPRD would continue to hold OISD to the agreement for field conditions.

Zak also asked about an established deadline for registration cut-off for better planning purposes. Terri shared that the deadline for baseball and softball registration is two weeks prior to the start of the baseball season. She is committed to holding that deadline to ensure proper planning for the program. She added that the program is listed on the winter program mailer, and with added email blasts and other advertisements, there will be plenty of

advertisement to allow parents a generous window for registration. Registration is currently open online.

Walter Witt requested information regarding practice space for tackle football teams in coordination with the delayed OISD field project. Bob shared that we would learn more about field scheduling conflicts once the second round of bids came in and OISD develops an updated timeline on the field projects.
